

# FASHIONS COMING TO YOU

**W**hy go out shopping when you can let the shopping come to you? Vera and Bill launched their travelling clothing store after Bill retired from engineering and Vera from fashion show organizing. On March 31st, residents of Hearthstone by the Bay were given the opportunity to try on new clothes and accessories without having to leave their home. They had a great time showing each other their outfits and getting advice on the perfect piece of jewellery to go with it. Many happy shoppers came away with some wonderful finds without getting tired feet from too much travelling.
