

A LUXURIOUS NEW CONCEPT FOR INDEPENDENT RETIREMENT LIVING

Spring Is In The Air...

Spring is here and what better way to bring in the new season then with a top-to-bottom cleaning frenzy. Revitalize your home by using these 6 cleaning tips to Bring in the Spring.

- 1.) Clean one room at a time to avoid unfinished jobs. The satisfaction of seeing one room shine will inspire you to make the rest of the rooms in your home sparkle.
- 2.) Consider putting all of your cleaning supplies – dusting cloths, paper towels, cleaning products, etc – into one container to carry with you from room to room.
- 3.) To protect your skin and nails, invest in good rubber or vinyl gloves.
- 4.) Multi-task. While laundry is spinning scrub down your bathroom area to help make the process more expedient.
- 5.) Freshen up your bed by vacuuming or steam-cleaning your mattress. Open the windows in your bedroom to let the air in and flip the mattress before dressing the bed with clean linens.
- 6.) Out with the old and in with the new. Switch your Winter wardrobe to Spring/Summer fashions. Give unwanted clothing away to friends, family or even charity.
